**Flexi Dri Plugs are patented expandable fixing plugs which offer extra grip and are unique to Delta Membrane Systems Limited.**

Delta Flexidri Plus Plugs are a handy hammer-in fixings which contain an expandable waterproof seal for use with cavity drain membranes for use on multiple substrates. The Flexidri Plus Plug incorporates a threaded aperture in the head portion to accommodate a 5mm dia/size 10 fixing screw for subsequent installation of wall ties and/or dry lining systems (100mm shank x 90mm). Available in a box of 100.

# PRODUCT DATA SHEET

## DELTA FLEXI DRI PLUS PLUGS

Product Code: DMS239

### BENEFITS

- The Flexidri Plus Plug offers a bellows action, meaning it can expand without splitting (as was the case with the older-style cob plug)
- Available in double sealed versions (where the pin and the neck of the plug are sealed)
- Flexi Dri Plus Plugs are a great alternative to Qwik-Seal plugs and PT plugs

### SPECIFICATION

- Type C Drained Protection in accordance with BS 8102:2009
- Suitable for ICF Construction
- 10mm Drill Bit required

### ASSOCIATED PRODUCTS

- Delta MS500
- Delta PT
- Delta Plugs
- Delta Qwik-Seal Plugs
- Delta Corner Strip
- Delta Tape
- Delta Rope
- Delta Fleece Tape
