

Description

rbs Greentard Gel MF is a mould & form face retarder. It is a transparent aqueous composition with a gel consistency colour tinted blue to assist in the application process.

Advantages

- Excellent non-slump properties for application to vertical surface.
- Adheres well to treated surface after water carrier has evaporated.
- Suitable for application to all types of mould and formwork surfaces.

Directions For Use

- After long storage period lightly stir material to ensure uniform consistency.
- Ensure surface to be treated is clean, dry and free of any deposits.
- Apply uniformly by brush or roller at up to 4 sq.mts per litre.
- When placing concrete take precautions to ensure heavy scouring action does not remove the retarder.
- Removal of cement matrix should be as soon as possible after stripping and generally within 1-2 days after placing concrete.
- It should be carried out by low pressure water jetting and brooming or wire brushing in two directions at right angles to each other.

Packaging

rbs Greentard Gel MF is available in a 25 litre container.

The information given on this sheet is, to the best of our knowledge, true and accurate. No guarantee of the results implied, or any loss or damage arising out of this material, however, are possible as the conditions of application are beyond our control. This is not withstanding any liability arising from the Consumer Protection Act 1987 and the Health & Safety at Work Act. Health and Safety data is available on this product and should be referred to prior to its use

Storage

rbs Greentard Gel MF should be protected from frost and direct sun shine. Keep contents sealed after use. The shelf life is 1 year when stored as recommended.

Health & Safety

When working with rbs Greentard Gel MF suitable protective clothing, eye/face protection and gloves should be worn. For further health and safety information, please refer to the relevant Safety Data Sheet.

Important Note

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded
