

Supplying the foundation for your success

The UK's trusted supplier of
specialist construction products

Resapol is the leading national independent distributor of specialist construction products in the UK, we specialise in stocking and supplying a huge range of quality construction products. Combining swift delivery and a huge stock of products, we supply the foundation for your success.

Branches nationwide including 2 Supercentres

All depot staff have excellent technical knowledge and practical experience of the full range of products. Trained in the latest practices at the Resapol Training Academy we are well versed in all our product ranges. Technical support is offered at all levels, including specification writing and method statements.

Our depots work closely together controlling and sharing stocks to ensure sites can be serviced nationally with ease and speed. This enables swift recognition of individual needs and requirements.

We take pride in our lightning-quick delivery service. We supply contracts across several factors including rail possessions, motorway lane rentals, factory shutdowns and understand how critical it is for goods to be delivered on time, every time, anywhere in the UK!

Resapol holds ISO 14001:2015, ISO 9001:2015 and OHSAS 18001:2007 accreditations from TÜV NORD. We are members of the Concrete Repair Association, Sprayed Concrete Association, The Structural Concrete Alliance, The Basement Waterproofing Association, FeRFA and The BMF with whom we share knowledge, training and expertise. As part of our commitment to builders merchants we are supplier members of the NMBS.

All these factors are what make Resapol the foundations for your success.

Concrete Repair/Protection

Despite the many benefits that concrete offers it does have some inherent problems which can cause issues over the lifetime of a structure.

Whether concrete has suffered due to environmental factors, poor design, impact damage, chemical attack or poor initial application, we have a range of solutions to tackle the problem and extend the structural lifespan.

Waterproofing

Our wide range of waterproofing products are individually aimed to aid you in keeping structures safe from water damage. Our technical sales advisors are specifically trained on a multitude of different materials to handle all your needs.

Resapol offers a wide range of systems for both retaining water and keeping water out. Market leading waterproofing membranes, liquid membranes, hydrophilic waterstops, admixtures and sheet drainage systems are stocked across the country, with the most popular materials available for same or next day delivery.

Grouts & Anchors

We know that stability is the key to structural integrity. To complement this we offer a comprehensive range of grout and anchor solutions whether for application in Industrial, Civil, Commercial or Residential settings.

With applications where dynamic loads are present such as rail bedding or where loads are consistent such as in precast construction, there are many factors that influence product selection.

Our expertise can help you select the correct product from our wide range, based on your stability, flowability, application, and strength needs.

Joint Sealants & Adhesives

If you're sealing movement joints, expansion joints, construction joints, connection joints or isolation joints our technical sales team can offer the right product for you. We supply a comprehensive range of joint sealants from leading manufacturers.

We stock polysulphide, epoxy, polyurethane and bitumen based sealants, including sealants that come with fire ratings or sealants that can be used in potable water structures.

Our technical sales staff can assist you with the right selection of sealant adhesive and we have data of all our products available on our website.

Flooring

Whether your project is a new build or refurbishment, at Resapol we have a vast range of flooring solutions supplied by leading manufacturers.

We offer a comprehensive range consisting of Industrial, Commercial & Residential screeds for either hand or pump application with Low Dust Technology.

On top of this we also have a range of fast patch repairs designed to keep disruption down to a minimum. Trafficable within a short time frame, our flooring can even be applied in sub-zero temperatures allowing for quick repairs.

Highways & Urban Landscaping

Resapol know that highway maintenance is essential to keep roads open and traffic moving.

With our key suppliers we have the optimum products to help you minimise disruption now and get the best results for the future.

We offer a range of high performance rapid hardening repair mortars, flowable and spray concretes, crack infills, overbanding and structural strengthening systems. In addition we also stock cold applied, fast curing products for marking roads, cycleways, car parks etc. in a range of colours with patch and bulk options.

Passive Fire Protection

Our wide range of linear joint seals, penetration seals, cavity barriers and professional sealants are the first line in fire protection.

These advanced products protect buildings against fire and smoke while still allowing for traffic flow through fire-rated walls and floors.

Trust is the watchword in passive fire protection and we only stock products that are tested to breaking point and certified to maintain the integrity of your building elements. Our cutting-edge delivery system also allows for lightning fast orders and strict deadline adhesion.
