

Description

rbs Brick & Mortar Cleaner is a specially selected blend of in-organic acids for the removal of all cement based contamination and rust from a wide range of surfaces.

Advantages

- Removal of concrete laitance from plant and machinery.
- Efficient removal of mortar stains and efflorescence from brickwork.
- Can be diluted with water for many applications.
- Rust stains quickly removed from all concrete surfaces.
- Excellent for final washing of newly exposed aggregate panels.

Directions For Use

Removal of mortar and rust stains – Thoroughly soak the contaminated area with water prior to the application of rbs Brick & Mortar Cleaner which can be used neat or diluted 1:1 with water. Apply by brush or hand spray. Heavy mortar runs may require a light wire brushing, whilst stains should be lightly scrubbed with a hard brush.

Removal of rust, mortar and concrete from plant equipment – Removal of rust, mortar and concrete from plant equipment: Ideally immerse plant in agitated plastic tank containing rbs Brick & Mortar Cleaner diluted 1:1 with water. After cleaning wash down with water.

Limitations

Protect bare metal components and fittings from rbs Brick & Mortar Cleaner, ensure adequate ventilation when using indoors.

The information given on this sheet is, to the best of our knowledge, true and accurate. No guarantee of the results implied, or any loss or damage arising out of this material, however, are possible as the conditions of application are beyond our control. This is not withstanding any liability arising from the Consumer Protection Act 1987 and the Health & Safety at Work Act. Health and Safety data is available on this product and should be referred to prior to its use

Packaging

rbs Brick & Mortar Cleaner is available in 5, 20 and 200 litre containers.

Storage

rbs Brick & Mortar Cleaner should be stored away from foodstuffs and out of reach of children. The shelf life is 12 months minimum, if stored correctly.

Health & Safety

rbs Brick & Mortar Cleaner is acidic. The normal code of safety when handling acids should be adhered to. Gloves and goggles should be worn. Accidental splashes on skin should be washed with soap and water. Contact with eyes must be avoided. If accidental splashes should occur then rinse immediately with copious amounts of water and medical treatment sought.

For further health and safety information, please refer to the relevant Safety Data Sheet.

Important Note

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy themselves that each product is fit for the purpose for which they intend to use it. Ensure that the actual conditions of use are suitable, and that in the light of our continual research and development programme, the information relating to each product has not been superseded.
