

Description

rbs Hydrochloric Acid Cleaner 32% is a specially selected blend of inorganic acids for the removal of all cement based contamination and rust from a wide range of surfaces. Ideal for etching concrete surface prior to application of subsequent treatments. Can be diluted to suit application.

Directions For Use

Removal of cement and rust stains - Thoroughly soak the contaminated area with water prior to the application of the acid, which can be diluted with 50% water. Apply by cloth, brush or hand spray. Remove with a clean cloth or stiff brush if the stain is stubborn.

Etching of concrete - Ensure any oil or grease is removed with a degreaser prior to etching. Dilute the acid with an equal volume of water and apply to the concrete. When the action is complete thoroughly brush and wash the concrete with copious amounts of clean water.

Removal of rust, mortar and concrete from plant equipment - Ideally immerse the plant in agitated plastic tank containing the acid diluted 50% with water, After cleaning wash down with clean water.

Packaging

rbs Hydrochloric Acid Cleaner 32% is available in 5 & 25Ltr plastic containers.

Storage

Store away from foodstuffs and out of the reach of children. Keep container closed, Shelf life unopened is at least 12 months.
